SPIRIT OF TEMBO

The Lemek Conservancy is located to the north-east of the Masai Mara National Reserve, and offers a varied landscape of hills and open savannah with scattered trees zigzagging along the Mara River, a landscape that is home to an abundance of resident wildlife, including a large pride of lions, leopards, many elephants and numerous transients. Like all the Conservancies, it is also a regular refuge for cheetah families fleeing the tourist pressure of the nearby National Reserve.

The Spirit of Tembo camp is nestled at the top of a hill and comprises four traditional tented rooms that have been furnished with the utmost attention to detail for the comfort of our guests. Each tent of around 80 m² has the most modern comforts, and a huge bathroom that opens onto one of the beautiful, unoverlooked terraces that complete these magnificent canvas houses.

A bar and a very fine restaurant, either indoors or on the terrace, will offer you the most elaborate drinks and dishes that, after the visual pleasures and emotions of safaris, will delight your taste buds.

With Spirit of Tembo, you can enjoy a unique safari experience at your own pace, very different from the Masai Mara:

- You will be able to travel legally off the tracks as long as you need to.
- If you'd like to photograph the cats eye-to-eye, you can use the 'board', a ground-level photographic device developed by Tembo by Jackson.
- You can discover the pleasures of night safaris, which are ideal for encounters with rarely-seen nocturnal wildlife.
- You can go on safari on foot, supervised, and experience the intense emotions of being close to the animals, in complete safety, but without the screen of the vehicle.

Far from tourist pressure, in a totally unspoilt environment, Spirit of Tembo offers you a safari combining tranquillity and contemplation.
